

## **Anesthesia Update – The Basics and Beyond**

**Saturday, May 22, 2010**

**8:30am -12:30 pm**

Registration 8:15 am

4 continuing education credits

### **COURSE DESCRIPTION**

Solutions to local anesthetic challenges are often accomplished by honing already solid skills and by demystifying and then making use of techniques less familiar to a majority of practitioners. This course has two goals: to bring participants up to date with the latest in the periodontal and restorative local anesthesia arsenals; followed by an in-depth approach to problem-solving and, importantly, depersonalizing the occasional failures, turning them instead into successes.

### **ABOUT OUR SPEAKERS**

**Kathy Bassett, RDH, MEd,** is Professor and clinic director of the Dental Hygiene Program at Pierce College, Lakewood, WA. She has more than 30 years practice experience focused primarily in local anesthesia delivery, restorative expanded functions and dental hygiene clinical practice. Kathy has more than 20 years experience teaching local anesthesia to dental hygiene students, practitioners, educators and dentists.

**Arthur DiMarco, DMD,** is the director of the University of Washington, School of Dentistry RIDE Program at Eastern Washington University and associate professor in the Department of Dental Hygiene. A veteran of more than 30 years of clinical practice and nearly two decades in dental, dental hygiene, and dental assisting education, Art is course director of the Pain Control curriculum at EWU and of an elective course in local anesthesia for first year dental students in Spokane.
